

Every user activity, and how the app handles it

From the first marketing-site scroll to the admin console — login, onboarding, billing, calls, texts, DMs, settings, integrations, support, crons and self-healing.

→ primary flow - - - -> cross-phase link □ user action / system step

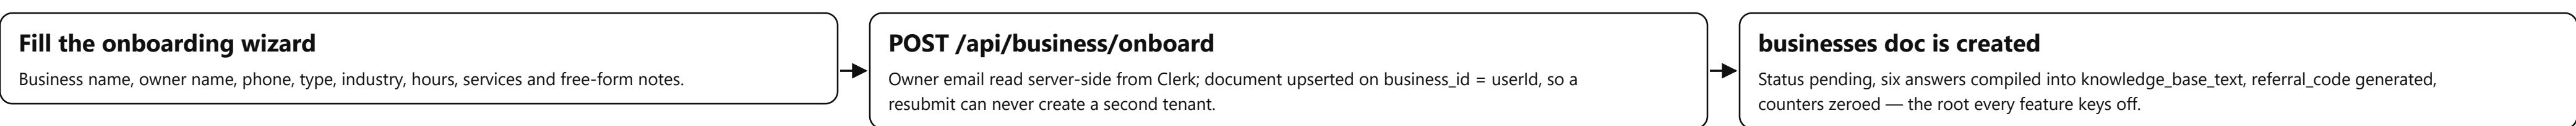

01 LANDING & SIGN-IN

public routes · no auth

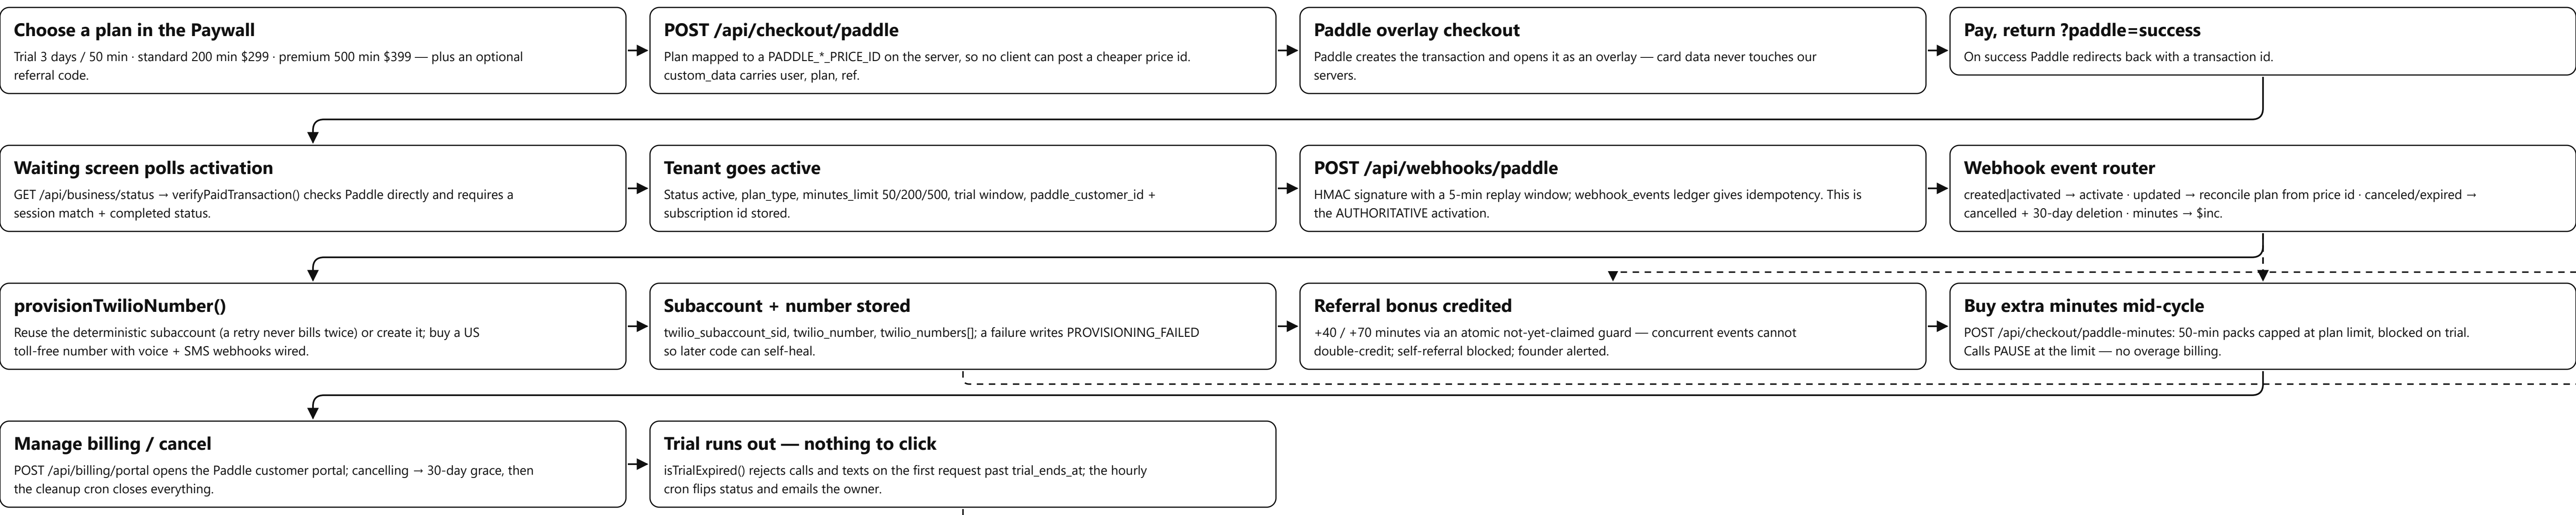

02 ONBOARDING

one form · before any payment

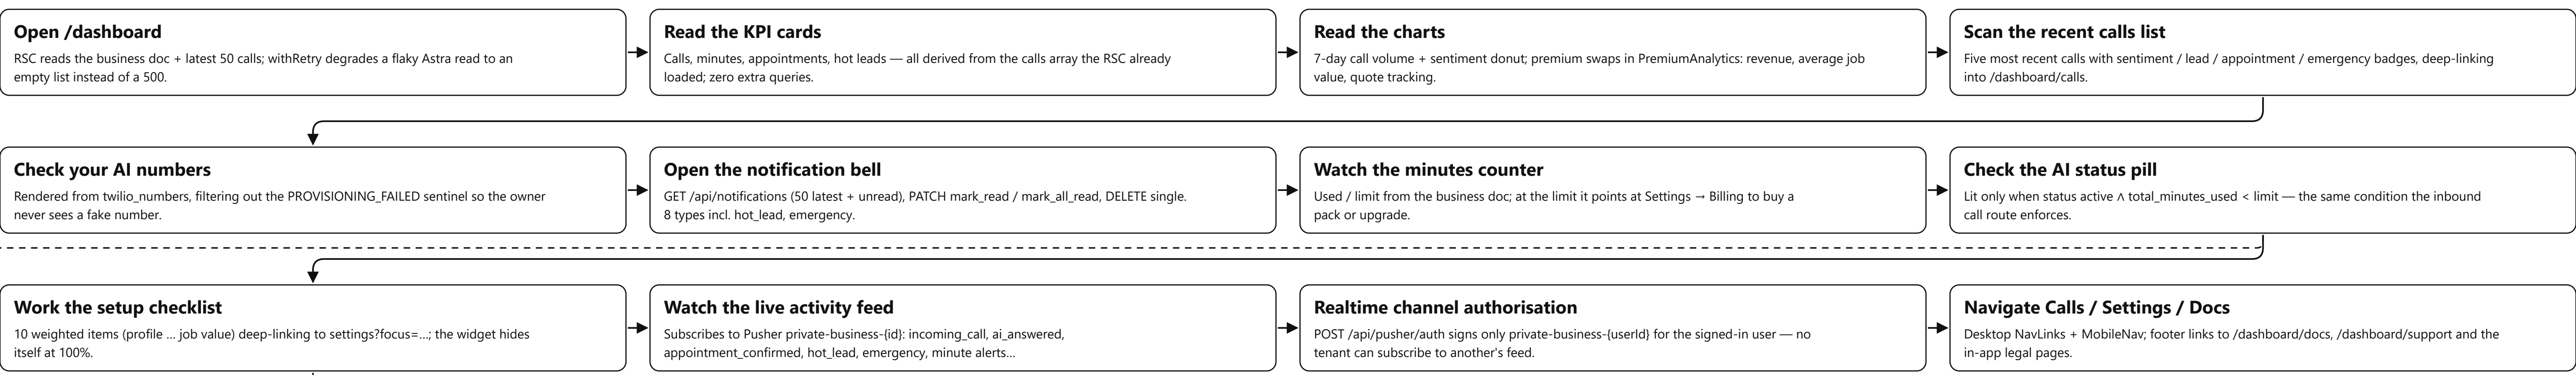

03 BILLING & ACTIVATION

Paddle → tenant goes live

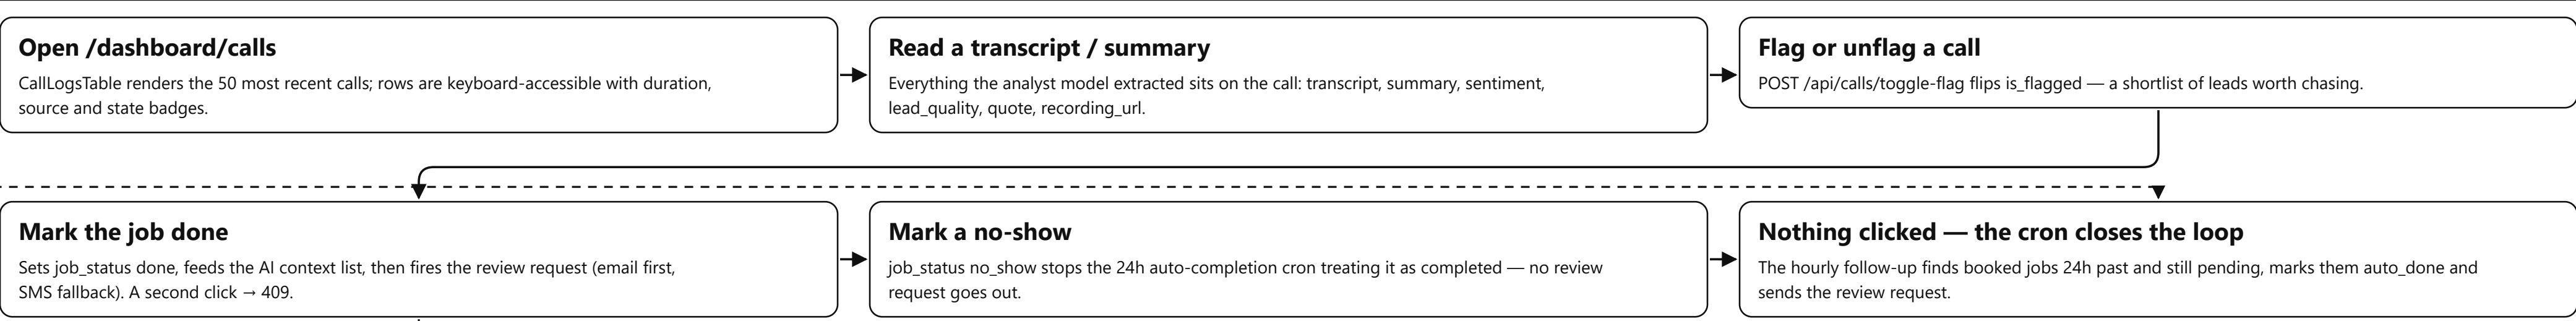

04 DASHBOARD HOME

what you see every morning

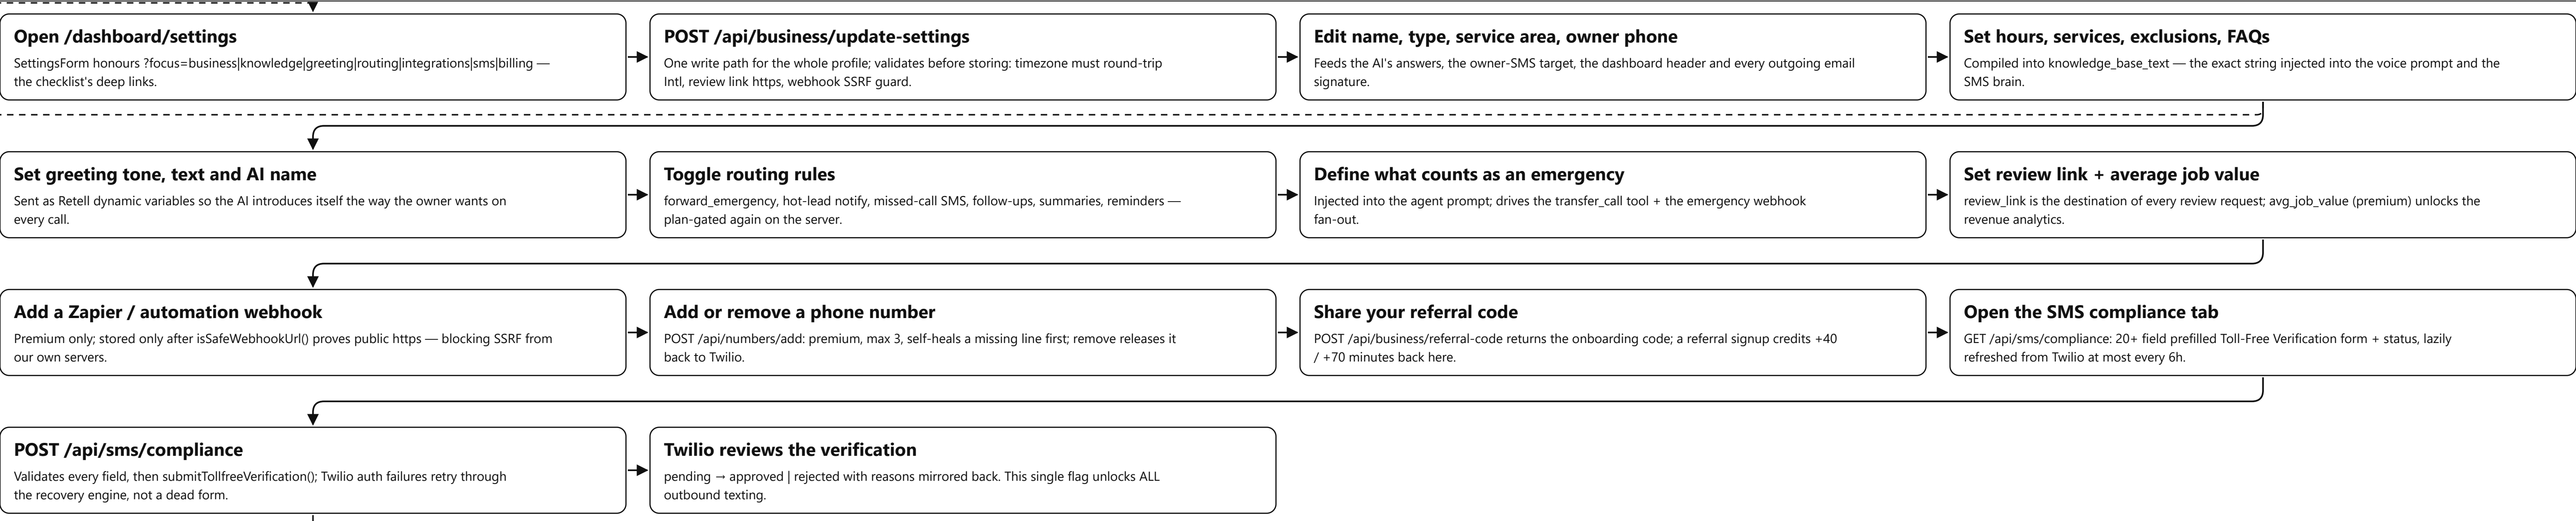

05 CALL LOGS & JOBS

the money screen
